Director Human Resource

Save The Children

Dear Sir/Madam

**RE: APPLICATION FOR ICT INTERNSHIP**

My name is Kenneth Mwangi Thumi, a Computer Science graduate from Kenyatta University. I hereby wish to apply for the position of ICT internship.

I am a young self-motivated and ambitious man who has lots of enthusiasm and passion in ICT. I believe having advanced ICT knowledge gives me the courage to confront any ICT challenge before me. In the same context, I also believe in team work if need arises and therefore have enrolled in many ICT forums where current ICT issues are addressed and optimal solutions shared .

I have over one year experience working in various organisations in key areas in IT such as IT support, Networking and even software development.

Attached is a copy of my resume. I'd be grateful if granted this opportunity. I'm looking forward hearing from you, thank you in advance.

Yours faithfully,  
Kenneth Thumi
