Director Human Resource

Systech Limited

Nairobi Dear Sir/Madam,

**RE: APPLICATION FOR SOFTWARE DEVELOPMENT INTERNSHIP**

My name is Kenneth Mwangi Thumi, a Computer Science graduate from Kenyatta University. I hereby wish to apply for the position of Software Development Internship.

I am a young self-motivated and ambitious man who has lots of enthusiasm and passion in ICT. I believe having advanced ICT knowledge gives me the courage to confront any ICT challenge before me. In the same context, I also believe in team work if need arises and therefore have enrolled in many ICT forums where current ICT issues are addressed and optimal solutions shared.

I have skills and experience in software development using php, Visual Basic and MySQL having best interests in core php programming language. I also possess strong skills in web design where I'm strong in HTML5 and CSS3. My choice CMS platform is JOOMLA 2.5 and 3. Other important skills include Networking, troubleshooting ICT hurdles, installing and maintaining ICT infrastructures and software. Joining you will give me an opportunity to showcase my skills and also improved my all round ICT skills.

Attached is a copy of my resume. I'd be grateful if granted this opportunity. I'm looking forward hearing from you, thank you in advance.

Yours faithfully,

Kenneth Thumi
